**2000**

<b>Quote</b>	<b>Nature of Statement</b>	<b>Speech/Source /Date</b>	<b>Analysis</b>
A second priority is the health of our boreal forests.	Policy Statement	Throne Speech – December 5, 2000	
The first ecosystem-based planning process has already been initiated for the spectacular Canadian Shield Forest area that lies to the east of Lake Winnipeg. This process will bring together First Nations communities and other local stakeholders. The plan that is developed for the east side will serve as a model for Manitoba’s extensive forest region.	Specific Commitment	Throne Speech – December 5, 2000	

**2001**

<b>Quote</b>	<b>Nature of Statement</b>	<b>Speech/Source /Date</b>	<b>Analysis</b>
Your Government is beginning the second phase of a sustainable planning process for the east	Specific Commitment	Throne Speech – November 13, 2001	

side that will include a new engineering study for a road to the community of Bloodvein, the designation of protected areas and economic development opportunities for local communities.			
[Water Strategy includes:] Increased support for drainage projects and watershed planning throughout rural Manitoba;	Specific Commitment	Throne Speech – November 13, 2001	

## 2002

Quote	Nature of Statement	Speech/Source /Date	Analysis
your Government is committed to providing more clarity in land use planning, both for local communities and investors	General Commitment	Throne Speech November 27, 2002	
The East Side Wide Area Planning process is demonstrating a community-based approach to land-use decision making	Declaration	Throne Speech November 27, 2002	
On the recommendation of stakeholders, the Province will establish a new cross-departmental Forestry Unit and will advance provincial land-use designations based on improved resource mapping.	Specific Commitment	Throne Speech November 27, 2002

### 2003

Quote	Nature of Statement	Speech/Source /Date	Analysis
We are continuing with the broad-based community planning process for the east side of Lake Winnipeg with the goal for improving transportation, and creating increased economic opportunity in a manner that is sustainable and fits with community goals and values.	Specific Commitment	2003 Budget Speech Environmental Stewardship	
<ul style="list-style-type: none"> <li>Continuing the community planning process for the east side of Lake Winnipeg</li> </ul>	Specific Commitment	Press Release – April 22, 2003 'Budget 2003 At a Glance'	

### 2004

Quote	Nature of Statement	Speech/Source /Date	Analysis
Water management zones are now being mapped, incorporating information on ground and surface water sensitivity. These green zone maps will be combined with long-term development plans formulated at the community level through a public process. Together they will form the bases for a new approach to land use decisions, one that enhances the role of scientific information and local decision-making.	Specific Commitment	Throne Speech November 22, 2004	
We have introduced The Water Protection Act, to facilitate more effective measures to protect water sources and aquatic ecosystems, provide a framework for integrated planning on a watershed basis,	Specific Commitment	Budget Speech April 19, 2004 – Conservation and Water Stewardship	

and enable the establishment of the Manitoba Water Council and Water Stewardship Fund.
