Manitoba's Public Policy indicates that a protected area is an area that is "closed by legal means to logging, mining, hydroelectric development, or any other activity that significantly and adversely affects habitat." The MB government continues to confirm its protected areas commitments and standards.

MANITOBA
WILDLANDS.

Total Area of Manitoba = 65 million Ha

Manitoba Protected Areas Audit 2009 Chart

Legend:

Green shaded row indicates audit changes from most recent year

Blue shaded column indicates if the area has had regulatory action since September 1999 YES - Protected; NO - Not Protected

Yellow shaded boxes indicate the area is a new protected area since September 1999 (Partial or Whole)

Pink shaded boxes indicate if the area has had protection renewed since September 1999

Purple shaded boxes indicate the area is a new designation, but is not protected

Red shaded boxes indicate areas which do not have their crown mineral rights withdrawn

ASI#

Area of Special Interest Number used for mapping by participants in Manitoba's protected area consultations & tech-review. Designed by Manitoba Conservation.

Date of Regulation

When designation or regulation became law

Designation Period

Interim protection dates

Protection YES/NO

"In Manitoba, as a minimum, a 'protected' area must be closed by legal means to logging; mining; hydroelectric development, or any other activity that significantly and adversely affects the environment." (Manitoba Conservation) *Heritage Rivers are not protected from development.

Designation Type

Park Reserve

Interim protection under Parks Act (Wilderness, Natural Park)

Provincial Park

Permanent protection & designation under Parks Act (Wilderness, Natural Park, Heritage, LUC)

Ecological Reserve

Permanent protection & designation under Ecological Reserves Act

Wildlife Management Area (WMA)

Designated under Wildlife Act, regulation for those WMAs or WMA units protected from development.

Lands under Forest Act

Designated under Forest Act, regulation specifies protection from development, like WMAs

Private Lands

Designated through agreements, crown mineral rights withdrawn (Eg. Nature Conservancy, Manitoba Naturalist Society Lands)

L.U.C. (Land Use Categories) Parks Act *=Protected from development

Wilderness*

To protect representative or unique natural landscapes in an undisturbed state and provide recreational opportunities that depend on a pristine environment

Backcountry*

To protect examples of natural landscapes and provide basic facilities and trails for nature-oriented recreation in a largely undisturbed environment

Resource Management

To permit commercial resource development or extraction in a manner that does not compromise the main purpose of the park classification

Access

To provide a point or route of access in a provincial park for a road, transmission corridor, etc.

Recreational Development

To accommodate recreational development, cottages, towns, roads, some resource development

Heritage*

To protect a unique or representative site containing a resource or resources of cultural or heritage value (depends on site)

Act

Ecological Reserves
Forestry (using same language as under Wildlife Act)
Mines (for withdrawal of crown mineral rights)
Parks
Wildlife

Protection Type

Interim
Permanent

Action Since September 1999

Regulatory steps under Manitoba Acts, since September 1999

Natural Regions

Natural regions of Manitoba - Manitoba Conservation

Size (Hectares)

Protected
Other (area within designation NOT protected)

Crown Mineral Rights Withdrawn

Prospecting, other dispositions not available under Mines Act

Mining Rank One

Ranked and Rated for protected status in Minerals Sector Protected Area Consultation

FN Nomination

Nominated for protection by a First Nation Community, under the First Nation Protected Areas MOU, its principles, consultation standards

Includes Water

May be rivers, lakes, or coastal areas included, LUC is usually Recreational Development where water is not protected. May also be within Parks Act LUC for protected status.
