Good Afternoon Participants,

Enclosed please find supporting documents for York Factory's presentation before the Clean Environment Commission. The actual submission was slated for November 21, 2012 at 1:00 p.m. but have not been able to travel in. Please see email to Cathy Johnson.

To put the actual submission in context please see the presentation to the Canadian Hydropower Association by York Factory and that is the type of engagement Chief and Council would have liked to have seen with BiPole III but have been completely ignored by Manitoba Hydro and the Province of Manitoba.

Respectfully,

Roy Redhead

Good afternoon, Cathy

I am forwarding you several documents in support of our (York Factory First Nation) presentation tomorrow before the Clean Environment Commission on November 21, 2012 at 1:00 p.m. The submission will be provided at the presentation.

However, the Chief and Council are weathered in York Landing, Manitoba today and the weather appears to be getting worse. They could not travel today as there was a funeral held in the community with the passing of one our most respected Elders. As you know this is the time of year when the only way into York Landing is by aircraft. That's how it is this time of year.

Chief and Council are requesting to be present to make their submission before the Commission but cannot

due to circumstances beyond their control. Please consider this request.

Respectfully,

Roy Redhead
